More than creator data

A foundation your team can build a whole product on – not just a dataset.

App-ready data

Skip the heavy lifting. Get structured, ready-to-use responses and save months of engineering work.

Scale without limits

Leave freshness and scale to us. Spend your energy on the product only you can build.

AI-powered search

Our AI search endpoints unlock use-cases that weren't possible before – and give your product a real edge.

"Giving our users access to creator data this deep and detailed is a big deal. The creator economy is core to how we go to market – partnering with Lolly opens up a whole new channel for their growth."

Stefan KollenbergTechnology Partnerships at Clay

logo

One API. Unlimited creator possibilities.

Custom influencer marketing platform.

Use Lolly as the engine behind a white-label product. Give your customers powerful creator search, analytics, and campaign tools under your own brand.

AI applications and agents.

Point your LLMs at an API they can actually reason over. Build predictive analysis, automated outreach and negotiation, and more.

Internal tools and workflows.

Wire Lolly into your own systems to move faster. Automate vetting, reporting, and programmatic campaign tracking.

Built for production. Ready to scale.
